## Majority Vote in Favor New Agreement

Result of Ballot Shows Big Majority for Continuance of Work

The two unions of miners of International Coal & Coke Co. Ltd. and McGillivray Creek Coal & Coke Co. Ltd. voted last Friday on the agreement negotiated between their committee of ten and the general managers of the companies, which is to continue till March 31, 1930, and the outside men formerly receiving \$4.20 per eight hour day are to receive \$4.25.

This is the only change in the agreement previously existing. The result of the vote was 494 for, 164 against, 18 spoiled; total votes 658. This does not represent the total vote, as possibly 200 obtained from recording a vote.

The signing of the agreement, though not giving the committee the terms asked for in negotiating with the general managers of the company, has allayed the suspense that existed during the month of April, and will permit work for the next two years.

Supt. McLeod of the International mine was a visitor to Calgary the latter part of last week.

## Win a Dollar by Reading the Ads

In one of this week's store advertisements is a purposely misplaced word. See if you can find it, and if successful cut out the advertisement, mark the word on it or the margin or on a separate piece of paper write the word correctly, with your name, and either mail it to The Journal or leave it in box at the office. Answers will be received up till noon on Tuesday, when the answers will be taken from the box, and the first correct answer taken from the box will be awarded one dollar. If there are two or more correct replies, the nearest reply will be given the prize.

## Dance Next Monday in Ukrainian Hall

A grand dance will be held in the Ukrainian hall, Coleman, on Monday next, May 14, commencing at 9 o'clock, the Altamont 4 piece orchestra having been engaged. Refreshments will be served at midnight, and a cordial invitation is extended to the public to attend.

Mother's Day service at the Salvation Army will be featured by an address by Mrs. Rhodes of Belle vue.

## Formal Opening of New Bank Building

Large Numbers Attend Reception Yesterday and Admire Canadian Bank of Commerce Handsome New Quarters

The formal opening of the new building of the Canadian Bank of Commerce on Wednesday afternoon was the occasion for the visit of a large number from Coleman and district, when a reception from 2 to 4 o'clock was held, for which 750 invitations had been issued.

The opening of the new building marks quite a forward step in the business activity of the town, and many complimentary remarks were heard on its fine appearance and the interior fittings. The visitors were received by Mr. W. L. Rippon, local manager, who introduced them to Mr. J. B. Corbet, superintendent for Alberta, who came down from Calgary to take part in the opening. For the entertainment of the visitors refreshments were served, and the interior of the bank was thrown open for inspection. Mr. H. M. Dose and Mr. D. Freeman assisting in showing the visitors around. The bank vault, proved a place of interest to many, in which are the safety deposit boxes and the cash safe with its time lock, and the curious were informed much to their astonishment though small it is in appearance, its weight is three tons.

The fittings of polished oak and plate glass, graced for the occasion with potted cut flowers, and indirect lighting fixtures suspended from the ceiling, gave a very bright appearance. The exterior is of red faced brick, and the building has a full basement, in which is a storage vault for bank records. Standing on one of the most prominent corners of the business section, and surrounded by the name of the bank in bronze letters on three sides, it immediately attracts attention and is a credit to the bank.

In speaking to The Journal on the opening of the building, Superintendent Corbet paid a tribute to the workmanship and finish of the building, the contract for which was carried out by J. S. D'Apollonia, the well known contractor of the Crow's Nest Pass. Coleman business men and citizens generally are very pleased that the bank has expressed its confidence in the future of Coleman by erecting a substantial building, and feel that its example will act as an incentive to other business interests which may be contemplating development here.

## Bellevue to Play Here Saturday at 6.30

Coleman Legion football team went to Bellevue on Saturday evening to play the Legion team there and won easily by a score of 5-0. Pryde, Sharp, Yates and Burke starred for Coleman. Yates opened the scoring in the first half. G. Ford in goal made a couple of good saves.

A return game is to be played here on Saturday evening at the sports ground, the kick off being scheduled for 6.30 p.m. Admission is 25c. Bellevue expects to play a much closer game on Saturday and there will likely be a good crowd of football fans out to see the game, as quite a number are coming down from the neighboring towns.

## C. S. Ouimette is Honored by Elks

Coleman Lodge B. P. O. E. Makes Presentation to Retiring Treasurer

At the conclusion of the regular session of Lodge No. 117, B. P. O. E. on Friday, a banquet was tendered to Bro. C. Ouimette, who is resigning the position of treasurer in the lodge prior to leaving town.

A splendid time was spent by those present, the social program being rendered by A. Phillips, C. Makin, A. McCulloch, and H. Parkinson, E. Royle presiding at the piano. During the evening a beautiful case of pipes and tobacco pouch was presented to Bro. Ouimette.

Bro. R. F. Barnes acted as toastmaster in his usual breezy style and appropriate speeches were made by the exalted ruler, Bro. G. Brown, and Bros. A. M. Morrison, C. W. Mackinnon, H. C. McBurney, W. L. Rippon, O. E. S. Whiteside and Harry W. Clark.

## May 23 is Date for Coleman Players

Clever 3-Act Comedy Will be Presented by Local Talented Artists Under Auspices W.I.

The Coleman Players will present an all star caste in the three act comedy, "On the Hiring Line," at the Grand, Wednesday, May 23. The proceeds of this production, which is under the auspices of the Women's Institute, will go to the Coleman Swimming Pool Fund. "On the Hiring Line" is a high explosive mirth producer, worthy of a place beside the previous successes of this talented galaxy of stars. More than that, the play presents a solution to a problem that has driven strong men to tears and dragged down thousands of women to the depths of despair.

As the age old battle rages between the instinctive female cleverness and dogged male determination the plot carries through to an unexpected denouement with a laugh in every line.

The holiday following will be an opportunity to recover from the heavy attack of "laughitis" that is bound to occur.

Wm. McKenzie was this week fined \$5 for having matches in his pocket in the mines. It seemed tough to prosecute the man as there was only one match and it was in the lining of his coat unknown to him. However, others may profit by the example and search their clothes more diligently. Eternal vigilance is the price of safety in the mines.—Ferne Free Press.

## Town of Coleman

### R's Borrowing Money for Street Improvements

BYLAW No. 87 having been passed enabling the Town of Coleman to borrow the sum of \$5,000.00 repayable in instalments over a five year period, said money to be used for grading and levelling of the streets, and spreading crushed rock or gravel, the secretary-treasurer of the town is authorized under said bylaw No. 87 to accept applications for same to be loaned to the town in amounts of \$500 and \$1000, interest payable at rate of 7 per cent. per annum. Repayment of loans is guaranteed under the corporate seal of the Town of Coleman and the credit of the town at large.

Office hours from 11 to 12 a.m. and 3 to 4 p.m.

JAMES FORD,

Secretary-Treasurer

## Council Met on Friday

A meeting of the town council held on Friday evening decided to make some improvements in the road at West Coleman, to connect with the new automobile road.

Mr. O. E. S. Whiteside, general manager of the International Coal & Coke Co. Ltd., conferred with the council in connection with laying new mains in certain portions of the town, where considerable wastage is caused through leaky pipes. The Coleman Light & Water Co. is a subsidiary of the

International Co. and it is reported that it is the intention of the company to make improvements to the water mains, but the co-operation of the townspeople is desired in helping to defray the cost by purchasing a block of debentures. No definite action was taken at the meeting, but the proposal will again be taken up by the council.

Notice of motion was given that a by-law will be brought before the next meeting of the council to strike a rate for taxation for the current year.

## A Triumph of Engineering Genius!

UNDERLYING the smart styling of Pontiac's Fisher-built bodies, you will find the master touches of skilled craftsmen and designers . . . the unmistakable evidence of engineering excellence. The big, husky Pontiac Six engine—with its GMR "blue-streak" cylinder head, its crankcase ventilation system, its oil filter, sump cleaner, etc. . . . is the result of the skill and experience of Pontiac engineers, plus General Motors' great engineering and research laboratories!

The fuel-pump system (replacing the vacuum-tank) . . . the Lovejoy Shock Absorbers . . . the sure acting mechanical Four Wheel Brakes . . . these too are developments of Pontiac plus General Motors.

General Motors' resources make Pontiac Six a triumph of engineering genius, just as they make it a revelation of six-cylinder value.

Ask your dealer about the G.M.A.C. Deferred Payment Plan, which makes buying easy. P-23-25C

## Who Wants War?

The statement has been made so frequently, and with such vigor that it is the capitalist class of the world which has been responsible for war between nations, that many people have become convinced of its truth. And it is probably true that some of the wars of the past have been the direct result of greedy men seeking to further their own selfish ends. To what extent capitalists have been responsible for past wars it would be difficult to say, but with the experience of the last Great War, and the disastrous effects on industry and world commerce which resulted, both during the continuance of the conflict and in the years that have followed, it is safe to say that Capital has learned its lesson, and today the whole influence of the financial and industrial world is thrown into the scale in favor of continuing Peace.

A strange picture is, however, presented by the one country in which those who are loudest in their outcry against the capitalist class are in full control, namely, Russia. In an other country is Capital so strongly denounced as in Soviet Russia. The Soviet leaders regard Capital as the source of all the world's difficulties and sorrows. At its door they lay the major crimes of the world. The revolution under Lenin and Trotsky had for its object, not the overthrow of the Czarist Government, for it had already fallen, but the overthrow and complete destruction of Capital, and in their campaign against the capitalist system they held it to be responsible for war and the sufferings and losses which war always entails.

Today, however, under the leadership of the Soviet, Russia is the most militaristic country in the world—the one chief place of danger to the peace of the world. Recently a full-length picture of the military spirit of Russia was given by one who is friendly to the present ideas of the Soviet, Mr. William Wellock, Ex-M.P. for the Stourbridge Division of Worcestershire, England, in the British Parliament. He makes some interesting disclosures in a recent article on "Soviet Russia of Today," which appeared in a recent issue of the "Socialist Review." There he admits that the Soviet dictatorship "possesses, even boasts of, a most efficient system of espionage and is responsible for creating a military spirit that gives one food for reflection."

Moreover, he says, "Girls as well as boys are learning to handle rifles, and girls' corps for this purpose are being formed for those otherwise excellent institutions, workers' or trade union clubs. Indeed, except during the World War, I have never seen such military enthusiasm as I witnessed in Russia during my recent visit." Mr. Wellock mentions a military demonstration by half a million young people of the International Youth Movement, and observes: "If after the enthusiasm and determination I then witnessed, Russia is ever attacked I pity the army that comes out against her, for no capitalist government in the whole world can put an army into the field with a modicum of the enthusiasm possessed by Young Russia. It was very significant."

Thus, while professing peace at Geneva, and submitting proposals that all the nations of the world totally disarm, the Soviet leaders are engaged in the task of exciting military enthusiasm throughout the length and breadth of Russia, and training the youth of the land, girls as well as boys, for war. In the face of such duplicity, and with full knowledge of what Russia is attempting in China, and in fact, in all countries where a fanning of unrest prevails, how can the other nations of the world scrap all their armaments, as many, if not most of them, would like to do? Russia is, in actual fact, the greatest stumbling block to world disarmament, and, notwithstanding all the pious protestations of the Soviet leaders, constitutes the outstanding threat against future peace among the nations.

### Delay In Delivery

Postal Note Issued In 1910 Cashed After 18 Years

After a trip to Bukovina and several other points in the Balkans and long rests at Ottawa, New York, and other likely points, a postal note for \$27, issued at Cranbrook in 1910, was recently cashed at Creston Post Office by the owner, Frank Kenik, now employed locally. Though the note was sent him 15 years ago by his brother, John. At the saving account rate of interest the holder of the long overdue note is out over \$20.

### Payments For Beets

Cheques amounting to over \$18,000 have been distributed among beet growers of Southern Alberta by the Canadian Sugar Factories Limited. This represents an additional payment of 50 cents a ton for 1927 beets, bringing the total amount paid for last year's deliveries up to \$7 per ton.

Magistrate: "Did you have an assistant in this robbery?"

Prisoner: "No, I had one once, but I 'ad to dismiss 'im—'e was dishonest!"

Block stomachs, sour stomachs and indigestion usually mean over-stimulation. The stomach nerves are over-stimulated. Too much acid makes the stomach and intestines sour. Alkali kills acid instantly. The best form is Phillips' Milk of Magnesia, because one harmless, tasteless dose neutralizes many times its volume in acid. Since its invention, 50 years ago, it has remained the standard with physicians everywhere.

### World's Greatest Tea Drinkers

New Zealanders Serve It Seven Times Every Day

In New Zealand they drink tea seven times a day, according to one long resident at Ottawa, New York, and of the Canadian Exchange teachers, Miss Lucella Derbecker, of Kitchener. Ont. Miss Derbecker stated that although there were no furnaces in the houses, the practice of tea-drinking served to counteract the chill of the rainy season during July and August. Tea before breakfast, tea at breakfast, morning tea at half past ten, tea for luncheon, afternoon tea, tea for dinner, and tea for supper were the varying procedure. Even the shops, and offices served tea at 10:30 in the morning she said.

A shark's egg is unprotected with shell, but the contents are protected by a thick, leathery covering almost as elastic as rubber.

Women are always included when speaking of mankind, for man embraces woman.

The city of Strasbourg is the capital of the province of Alsace.

# Reduce the Acid

Take a spoonful in water and your indigestion will be counteracted in five minutes. Then you will always know what to do. Crude and harmful methods will never avail to you. Give proof this for your own sake. It may save a great many disagreeable hours. Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acid. Each bottle contains full directions—any drugstore.

### Premier Baldwin Never Contributes To Press

Has Never Been Asked But Hopes He Will Be  
That Premier Baldwin occupies a somewhat unique distinction among cabinet ministers in that he has never had a single offer of any kind to contribute to the press, was revealed by Mr. Baldwin in a speech at a luncheon given to Viscount Durham. "I might produce something," the Premier said, smilingly, "that if not worth a penny a line might at least be worth a penny a mile," he remarked. When he retired from public life, he added, he would like to feel that one kind hearted person had once made him an offer so that he could see his own stuff in print with his name under it.

### RHEUMATIC PAINS DUE TO THIN BLOOD

#### Relief Comes Through the Use Of Dr. Williams' Pink Pills

The most a rheumatic sufferer can hope for in rubbing something on the swollen, aching joints is a little relief, and all the while the trouble is becoming more firmly rooted. It is now known that rheumatism is rooted in the blood, and that as the trouble goes on the blood becomes still further thin and watery. To get rid of rheumatism, therefore, you must go to the root of the trouble in the blood. That is why Dr. Williams' Pink Pills have proved so beneficial when taken for this trouble. They make new, rich blood which expels the poisonous acid and the rheumatism disappears.

There are thousands of former rheumatic sufferers in Canada, now well and strong, who thank Dr. Williams' Pink Pills that they are now free from the aches and pains of this dreaded trouble. One of these Mrs. W. F. Tall, McKellar, Ont., who says: "I am an old sufferer from rheumatism. I received from the use of Dr. Williams' Pink Pills a relief which I had for seven weeks suffering until agony with inflammatory rheumatism. Relief finally came through the use of this medicine. I could not move in bed any of the time, and I could only sleep when opiates were given me. The medical treatment I was taking seemed of no avail. Then I was advised to try Dr. Williams' Pink Pills, and soon I began to get relief. After taking six or eight boxes the rheumatism was banished and I had never felt better since. My life has been a long one, and this happened and I have had no return of the trouble since. I may add that I recommended the pills to two of my friends who were suffering with rheumatism and the pills were equally effective for them."

Try Dr. Williams' Pink Pills for anemia, rheumatism, neuritis, indigestion or nervousness. Take them as a tonic if you are not in the best physical condition and cultivate a resistance that will keep you strong. You can get these pills through any medicine dealer or by mail at 50c a box from The Williams' Medicine Co., Brockville, Ont.

### Will Travel By Plane

Prince Of Wales Will Use Aeroplane In Trips About Country

The London Mail says that the Prince of Wales has decided to use an aeroplane for travel about the country in filling his numerous engagements. A special fast army two-seater plane has been allotted for his use at Northolt Aerodrome, near Harrow.

The Prince holds the rank of group captain in the Royal Air Force and has had considerable experience in flying.

Miller's Worm Powders can do no injury to the most delicate child. Any child, or infant in the state of adolescence, who is infested with worms can take this preparation without a qualm of the stomach, and will find it a sure relief and a full protection from these destructive pests, which are responsible for much sickness and great suffering to legions of little ones.

### Germany Shows Thanks

Is Grateful To Canada For Assistance Given To Airmen

Germany has thanked Canada for the assistance rendered in behalf of the crew of the Bremen aeroplane, which blazed the east-to-west trans-Atlantic air trail. The following message from L. Kempf, German consul-general for the Dominion, has been received by Premier King.

"I am instructed by my government to express the sincerest thanks of the government of the German Reich for all the assistance rendered to the fliers of the Bremen. My government would be grateful if you would transmit the thanks to the various government departments and to the numerous organizations and individuals who have so generously and efficiently come to the aid of the Bremen crew."

Canada is the principal source of soft wood supplies in the British Empire.

Insist on Minard's Liniment—accept no other.

### Claims Parachute Will Bring Airplanes Down

New Device If Successful Would Eliminate Risk Of Flying  
All risk will be eliminated from air flying if a device now under construction proves the success (its sponsor confidently believes it will be. At the All-American Aircraft Show, in Convention Hall, Detroit, Major Edward L. Hoffman, of Wright Field, Dayton, announced that parachutes which will bring a plane and its passengers safely by means of a chute, will be available soon.

Major Hoffman has spent much of his 18 years of army life at McCook Field, Dayton, where he conducted experiments in connection with the parachutes now used by the U.S. army.

"We have been experimenting along the lines of devising a parachute for an entire plane," he said. "The pilot would pull a lever, releasing a chute that would bring the plane safely to earth. As a result of experiments, I have brought down a 1,600-pound weight at a reasonable rate of speed with a 60-foot diameter parachute. Since the plane to be used in actual tests weighs 1,400 pounds, I am quite certain the results will be successful. I expect we will make the first tests at Dayton within the next two months.

The parachute to be used will take up four cubic feet of space and weigh not more than 120 pounds. In heavier planes more than one parachute would be used."

### Low Grade Wheat Marketed In Japan

Profitable Outlet In Orient For 300,000 Bushels Last Year

Speaking at Portage la Prairie, George McIvor, general sales manager of the Canadian Co-operative Wheat Growers' Ltd., the central selling agency for the Canadian pools, pointed out that out of a total world crop of about four billions of bushels only 800,000,000 were usually sold to world markets, and Canada supplied over a third of that. The pool itself handled about a quarter of it, and therefore was able to have quite an influence on price levels, this being particularly true because Canada is the only country selling hard spring wheat, now that Russia is out of the picture for the time being.

Mr. McIvor also mentioned that the pool had established a market in Italy for Canadian durums instead of selling there, as formerly, to American exporters for milling. Instead of raising the quality of American durum exports, Canadian durum now brought a premium straight back to the producer in Canada. Another example of the advantage of a strong central selling agency was shown in Alberta, where there was a lot of feed wheat last year that looked like being hard to get rid of. A trial shipment of 50 tons was sent to Japan. As a result over a million bushels of low-grade wheat has been sold on that market this year.

Praises This Asthma Remedy. A grateful user of Dr. J. D. Kellogg's asthma remedy writes: "It is the only remedy that will give relief, though for thirteen years I had sought other relief. I was in a state of needless suffering, but was prevented by using this wonderful remedy at the first warning of trouble. The cost is a trifle, its cost is slight, and it can be purchased almost anywhere."

World War Veteran (reminds): "Once we captured a big Bertha that had been throwing down over our line."

His Wife: "Why didn't she hang them on her own line?"

According to a sports journal, chess-players seldom die young. They would never finish a tournament if they did.

### Minard's Liniment For Toothache.

Men cannot live on the moon because the moon has no air and no water, at least in liquid form, and because it is so cold.

### Sure Signs

of kidney troubles are pain in the back, difficult urination, blood in urine. Gin Pills relieve kidney trouble by gently moving and healing the inflamed tissue. 50c a box at all drugstores.

COOL AND FRAGRANT

### France Paying War Debt

Britain Advised That RMI For 1928 Will Be Met

A brief announcement by the British Government that France intends to pay £8,000,000 on its war debt to Britain during the current year indicates that France is adhering to the debt agreement of 1928, notwithstanding the fact that it is as yet unratified by the French Senate. By agreement, the total indebtedness was fixed at £67,185,000 and a scale of annual payments was arranged.

The 1928 payment will be made in two equal installments, one on August 15, and the second on March 15, 1929, which is reckoned in the fiscal year of 1928.

Under the agreement £10,000,000 would be due in 1929, and £12,500,000 the following year.

An Oil That Is Famous. Though Canada was not the birthplace of Dr. Thomas' Electric Oil, it is the Electric Oil, it is the famous compound. From here its good name was spread to Central and South America, the West Indies, Australia and New Zealand. That is far indeed enough to attest its excellence, for in all these countries it is on sale and in demand.

### Equals Sun's Surface Heat

Powerful Flame Radiates Light From World's Largest Electric Lamp  
Paris, Voltaire's City of Light, boasts today the most powerful flashlight lamp in the world. Its light, generated by electric current, is equal to 1,400 million candles. When we consider that 1,000 million ordinary candles, put end to end, would extend eight to ten times round the earth, and almost far enough to reach the moon, we realize how far man has traveled as light-maker since the days of the first tallow candle.

Even if incandescent man had been able to manufacture 1,400 million candles and put them in 1,400 million candlesticks, the whole population of the world could not have set them alight; today a single man moves a switch, there is a masterpiece in the electric age and the light of 1,400 million candles bursts into flame.

So powerful is the lamp in Paris that from the top of Eiffel Tower it would be visible for hundreds of miles; and if the Eiffel Tower were twice as high a man with field glasses at Vienna would be able to see it quite clearly. The heat in the centre of the electric flame which radiates the light reaches 6,500 degrees Centigrade. That is to say, it equals the heat at the surface of the sun!

### Keep Clear Of The Road

When making a roadway repair, pull your car over off the concrete and keep your body out of the right of way. If you must crawl under car, keep your legs off the road. If you must change a tire, be sure no passing car can touch you as you work beside your automobile. You may think you are a conspicuous object on the road, and maybe you are, but there are always some drivers who cannot see.

Minard's Liniment for falling hair.

### High Prices For Livestock

At the Spring Stock Show held recently at Calgary, Alberta, 383 bulls were sold for a total of \$116,720, an average of \$297 each, which was \$184.50 per head higher than was paid for 553 bulls at the 1927 show.

Requisite On The Farm.—Every farmer and stock-raiser should keep a supply of Dr. Thomas' Electric Oil on hand, not only as a ready remedy for ills in the family, but because it is a horse and cattle medicine of great potency. As a substitute for sweet oil for horses and cattle affected by colic it far surpasses anything that can be administered.

### Growth Of Alberta Phone System

In the first three months of this year 418 new telephone stations were opened in the Province of Alberta. The phone system in Alberta is operated by the Provincial Government.

No surgical operation is necessary in removing corns if Holloway's Corn Remover be used.

Aluminum is more abundant throughout the world than any other metal. It forms over eight per cent. of the earth's crust.

The seedless tomato has been perfected in Kansas by a horticulturist.

## Cute in a Baby—Awful at Three—and it's Dangerous—

By Ruth Brittain

Thumb sucking does look sweet in a baby, but it is disgusting in the three-year-old and sometimes it hangs on until fifteen or sixteen! The habit may cause an ill-formed mouth or induce adenoids; and it always interferes with digestion. Pinning the sleeve over the hand; attaching mittens, or putting on cardboard cuffs, the elbow, are some of the ways to stop the habit.

Another bad habit—irregularity in bowel action—is responsible for weak bowels and constipation in babies. Give the tiny bowels an opportunity to act at regular periods each day. If they don't act at first, a little Fletcher's Castoria will soon regulate them. Every mother should keep a bottle of it handy to use in case of colic, cholera, diarrhea, gas on stomach and bowels, constipation, loss of sleep, or when baby is cross and feverish. Its gentle influence over baby's system enables him to get full nourishment from his food, helps him gain, strengthens his bowels.

Castoria is purely vegetable and harmless—the recipe is on the wrapper. Give the tiny bowels a chance to get on soon. With each package, you get a valuable book on Motherhood. Look for Chas. H. Fletcher's signature on the wrapper so you'll get the genuine.

## C.N.R. ESTIMATES ARE APPROVED BY COMMITTEE

Ottawa.—In its final report tabled in the House, the special railway committee of the House approved the estimates of the Canadian National Railway and Canadian Government Marine. The report says that when reductions in freight rates, increase in wages, late crop conditions and larger expenditure on maintenance of way and structures are taken into account, the result of the operations of the railway for the past year "are very satisfactory indeed."

The committee is satisfied from the evidence given that the estimates presented for the year are in accordance with the prescribed practice in railroad accounting and accurately reflect the revenues received and expenditure made during the period.

The committee is further of the opinion that the amounts of \$33,000,000 asked for the Canadian National and of \$758,000 asked for the Canadian Government Merchant Marine are necessary and should be passed by the House.

The committee struck a snag in its deliberations, and sat well after the usual hour of adjournment.

Sir Henry Thornton, president of the Canadian National, and Hon. H. H. Stevens differed sharply over the manner in which Canadian National accounts are presented.

Since the passage of the Maritime Freight Rates Act, the result of operations on the Eastern Lines had been published separately from that of the Canadian National Lines. Mr. Thornton held that while under the Maritime Freight Rates Act the accounts of Eastern lines had to be left separate, the result should be included in the main report. "The accounts as presented," Mr. Stevens declared, "do not give the whole situation fairly and accurately."

Sir Henry Thornton differed. He said that the board of directors of the Canadian National had followed what they believed to be the requirements of the Canadian National. He held that it would be unjust and unfair that the Canadian National should have to include in the operating results of the system the deficits on Western Lines brought about by freight reductions under the Maritime Freight Rates Act.

The report was not adopted till after two and a half hours' discussion.

## Grants Will Be Discontinued

Federal Assistance For Vocational Training Ends With Fiscal Year. Ottawa.—The grants of the Dominion Government to technical education will be discontinued at the end of the present fiscal year. Premier Mackenzie King told a large delegation which waited on the Government to urge that the federal assistance be continued.

The grants were begun in 1919, and the act provided that they be continued for a period of ten years. The prime minister said that as education was a matter solely within the jurisdiction of the provincial governments and the obligations of the federal government were so heavy, his government had come to the conclusion that the assistance to the provinces for technical education would not be continued when the present act expires.

The government would consider the cases of provinces which had been late in starting vocational training and therefore had not received the full benefit of the grants the act provided, these being allowed further time.

Would Follow Canada's Example. London.—Sir Hugh H. Denison, former commissioner for Australia in the United States, strongly urges the Commonwealth government to follow the example of the Canadian government in having a bureau at Washington, according to The Daily Telegraph's correspondent at Sydney, Australia.

Nurses Will Meet In Winnipeg. Montreal.—Winnipeg will be the scene of the convention of the Canadian National Association of Trained Nurses during July, it was stated here by Miss F. B. Brown, secretary-treasurer of the public health section of the association.

Calgary.—Margaret Kinney, of Edmonton, won the Alberta oratorical championship over Arthur Cragg, of Calgary. The judges were: Chief Justice Harvey, Mr. Justice Tweedie and Bishop L. R. Sherman. Hon. Perren Baker, Minister of Education, presided.

W. N. U. 1732

## Think British Envoy Should Be Canadian

British Labor M.P. Suggests Dominion Citizen For Post At Washington

London.—Appointment of a Canadian as principal representative of Great Britain at Washington is a suggestion made in a book, "The President of the Peace," just published by Lt.-Commander J. M. Kenworthy, Labor M.P., and George Young, once attaché to the late Lord Bryce, in the British embassy at Washington.

Referring to the naval differences between the two countries the authors state that in their belief the conflicting policies can be reconciled. They continue:

"There is now a new diplomatic channel and democratic compact in the Canadian diplomatic representative and his staff at Washington. Canada is a bond for peace between Great Britain and the United States and her mission in Washington might become a bridge for political confidence and co-operation."

"We might indeed do worse than persuade the Canadian Government to release an important citizen of the Dominion to represent England and the Empire at Washington when next there is a vacancy at the British embassy, and let the foreign office be represented by an official who would be a junior to the representative."

## Gen Currie Receives Verdict

Jury Finds Article Criticizing Sir Arthur Was Libelous

Cobourg, Ont.—By a poll of eleven to one, a civilian jury rendered a verdict against W. T. R. Preston, St. Catharines, who had written an article in the Port Hope Guide, entitled "Mons." and against the publisher of the paper, F. W. Wilson. The jury, after four hours' deliberation, found that publication of this article was libelous and they awarded General Sir Arthur Currie, who was the aggrieved party in the suit, damages in the sum of \$500. The former commander of the Canadian corps had claimed \$50,000.

The trial opened on April 16, in the Ontario supreme court assizes at Cobourg before Mr. Justice Rose and a jury. The hearing of evidence and address by the parties lasted over 13 days. During the course of the testimony the events of the stirring days which closed the campaign in Belgium and France, were gone over scene by scene, including the number whose names have become famous for deeds of gallantry and heroic leadership.

Sir Arthur was represented by W. N. Tilley, K.C., Toronto, and F. W. Wilson by Frank Regan, of Toronto. W. T. R. Preston conducted his own case.

## Commencing Work On Peace River Highways

Alberta Ministers Made Inspection Trip Over Proposed Route

Edmonton.—Hon. O. L. McPherson and J. D. Robertson, minister and deputy minister of public works, have returned from an inspection trip over the proposed route of the Peace River Highways. They went as far north as High Prairie, visiting a number of points where road construction details required decision before the season's work begins.

Work on the new highway into the North is to be commenced at once and will be pushed forward as rapidly as conditions will permit during the spring and summer. A working crew has already made camp in the Lesser Slave Lake region, where a considerable amount of clearing is to be done for the new route.

Mr. McPherson is hopeful of better conditions than last year, which in turn will make possible a better construction record for the season.

## Starts On Long Trip

Chicago.—The job of putting the Rotary club on "main street" in Jerusalem, Constantinople, Cairo, and the cities of the Orient, has been given to James Davidson, of Calgary, Alta., who has started a seven months' trip. Mr. Davidson is a past vice-president of Rotary International. His itinerary includes: Manchuria, Dutch East Indies, French Indo-China, Siam, India, Arabia, Egypt, Palestine, Turkey and Greece.

Summer Course For Teachers. Saskatoon.—The twelfth session of the summer school for teachers will open at the University of Saskatchewan on July 31. It is designed to afford teachers an opportunity to qualify for higher professional standing and also to receive special instruction in certain subjects on the public and high school courses of study.

## Leaves Life Job In Canton

Former Edmonton Man Was Bodyguard For Late Dr. Sun Yat Sen Canton.—Morris Cohen, famous two-gun man from Canada, who served the late Dr. Sun Yat Sen as bodyguard for the last three years of the revolutionary leader's life, has left Canton for an unnamed destination.

Of the polyglot coterie of foreigners who assembled about Dr. Sun's person in Canton—Red Russians, Americans, Germans—this burly free-handed Jewish adventurer is believed to have been the last of any prominence remaining in China. He turned up here six years ago with a letter of recommendation from revolutionary Chinese in Edmonton, Alta., whence Cohen hailed.

When the Komsomol leader died in 1925, his will stipulated that Cohen should have a life job in the Canton Government's Central bank. This he held, acting as messenger and purchasing agent for Canton officials, but he became involved in the Red uprising of last December. The upshot was his purchase of a one-way ticket from the scene of his six-year phase of his adventurous career.

## Radium Specialist Martyr To Science

Has Lost Left Hand But Will Continue His Work

Paris.—For the tenth time in two years Henri Becquerel, radium specialist in St. Louis hospital, Paris, has submitted to the amputation of a finger joint. His right hand is still intact, but ten operations have cut the left away. The skin effect which develops cancer is responsible. His left hand also is affected. Physicians have warned M. Becquerel that his martyrdom will be fatal, but the radiologist's answer is: "My comrades in the war made greater sacrifices for humanity."

## EGYPT MUST REMAIN UNDER BRITISH CONTROL

London.—"It takes the interests of Great Britain in Egypt make it impossible to contemplate the occupation of Egypt by any other power than ourselves," Sir Austen Chamberlain, British foreign secretary, asserted in the House of Commons today making public Britain's reply to the Egyptian government's note announcing its intention not to proceed with this session with the assemblies bill to which Britain had objected.

The Egyptian note dispelled for the time being at least the crisis brought about by the Egyptian government's intention to enact the measure and also resulted in the countermanding of instructions which it had previously been thought necessary to give to certain British warships.

"It will always be necessary," Sir Austen declared, "for this and other governments in the future to maintain the principles of the declaration of 1922 and as we forbid other powers to interfere we must also take measures to secure the safety of citizens of those powers as well as our own nationals."

The foreign secretary's statement came in answer to a question by Will Thorne, Labor, Plaisiow, who enquired whether Sir Austen thought the declaration of 1922 would stand for ever.

## SUCCESSFUL POLAR FLIGHT

Capt. George Wilkins, who flew over the north pole from Point Barrow to Spitzbergen, covering some 2,200 miles in 21 hours.

## Washington Grooms Fliers

Crew of Bremen Presented With Distinguished Flying Crosses

Washington, D.C.—The crew of the Bremen was welcomed to Washington as pioneers whose feat symbolized the ever-narrowing distance between the nations of the world.

Coming by train in the early hours of the morning, the German-Irish trio which accompanied the first non-stop flight of an airplane over the North Atlantic from the east, received the Secretary of State Frank B. Kellogg's greetings of the nation to supplement the tumultuous welcome they were given in New York City.

The three fliers, Von Huenefeld, Fitzmaurice and Koehl, were greeted as men who had marked another milestone in the path of man's conquest over the forces of nature.

After Secretary Kellogg had greeted them Ambassador Von Fitzmaurice, of Germany, and Hon. Timothy Smiddy, minister of the Irish Free State, stepped forward to offer welcome.

Prominent among those participating in the welcoming ceremonies was C. A. Lindbergh and Eddie Eickenacker, the U.S. war ace.

Later in the day the Bremen trio received from President Coolidge the distinguished flying crosses awarded them by Congress.

## Prepare For Night Flying

Bombers Have Been Ordered For Canadian Air Route

Ottawa.—Night flying will soon be a factor in aviation in Canada, according to plans being formulated by the civil aviation branch, department of national defence, for the first lighted airway in the Dominion, says The Ottawa Journal.

Tenders is understood are to be called for by the government for five giant beacon lights to be placed at intervals of 35 miles along the south shore of the St. Lawrence River on the air route from St. Hubert aerodrome, Montreal, to Lewis, Que. This will form a great part of the air mail route from Rimouski to inland points, which opened for the season on May 5.

## FAMOUS CANADIAN EXPLORER

London-India Air Service. Croydon, Eng.—Speaking at the official opening of the enlarged Croydon Aerodrome, Sir Samuel Hoare, British air minister, said he had approved the outline of an agreement between the Government and the Imperial Airways for a regular weekly air service between London and India.

Captain J. E. Bernier, the Arctic explorer and his wife. It was 20 years ago this last year that Captain Bernier took possession of the Arctic archipelago in the name of Canada. He has always been a champion of the Hudson Bay route and has been in and out of the straits a score of times without the least mishap. At 76, this iron man, who came over from the wooden ships to the iron ships, is a physical marvel and is far from having made the last entry in his log books.

## Claim Explanation Does Not Satisfy British

Invasion Of West Indies Ports By U.S. Anti-Smuggling Ships Being Discussed

Washington, D.C.—The controversy between the British and United States governments over violations by the United States prohibition enforcement staff of the Bahamas agreement probably will be carried to President Coolidge.

It is rumored here that Secretary of State Kellogg has informed the treasury department which is in charge of coastguard ships that the British government is not satisfied with the explanation offered of recent invasion of British ports in the West Indies by anti-smuggling ships from the United States and that the whole question will have to be referred to the president and his cabinet.

Executive departments here will neither confirm nor deny the rumors concerning the controversy, nor will the British embassy comment.

## Damage From Tidal Wave

Natives Killed and Crops Destroyed On Madagascar Coast

Paris.—Official advice just reaching Paris said that numbers of natives were killed and great damage done by a tidal wave which swept the East coast of Madagascar from Tamatave to Port Dauphin on April 20.

The European population escaped. Telegraph and telephone lines were cut. Buildings were swept away and crops destroyed.

Prompts, measures were taken to avoid famine in the flooded districts.

## WHEAT POOL CONFERENCE TO BE HELD IN JUNE

Winnipeg.—Co-operative marketing associations engaged in marketing livestock, dairy products, wool, fruit, poultry, etc., as well as representatives of consumers' co-operative organizations, will take part in the third international wheat pool conference, to be held at Regina, on June 8 and 9. It was announced by E. H. Burnes, chairman of the Wheat Pool committee, after an all-day session in the Manitoba Wheat Pool offices.

Mr. Burnell received word that the Scottish Co-operative Wholesale Society will be represented by John Cairns and Peter Malcolm, directors, and William Smith, commercial manager, and a buyer, as well as by John B. Fisher, of Winnipeg, Canadian manager, and the English Co-operative Wholesale Society by W. G. Wightley and J. Oliver, directors, and A. H. Hobbie, central wheat buyer.

Sir Thomas Allen is expected to attend as a member of the British Empire Marketing Board, Henry J. May, secretary of the International Co-operative Alliance has called that he will be present.

The Australian Wheat Pool are sending two representatives, C. Judd, of the Victoria Wheat Pool and J. Johnston, of the South Australia Farmers' Co-operative Union.

It is expected that Russian Co-operative Marketing Societies will be represented by several delegates.

The Australian government and the International Institute of Agriculture will have special representatives at the conference. A number of prominent officials from the United States department of agriculture as well as representatives of a number of the large co-operative organizations in addition to delegates and officials of the United States wheat pools will be present.

Among those who have promised to attend are: Judge John D. Miller, vice-president and general counsel of the Dairywomen's League and president of the National Co-operative Milk Products Federation, New York City; John Brandt, president of the Land O'Lakes Creameries, of Minneapolis; Ralph D. Merritt, managing director of the Sun-Maid Raisin Growers, Fresno, California; J. S. Montgomery, general manager of the Central Co-operative Association, St. Paul; F. M. Black, chairman of the Interior Tree Fruit and Vegetable committee of direction, Kelowna, B.C.

Hon. W. R. Motherwell, minister of agriculture for Canada; Hon. J. E. Brownlee, premier of Alberta; Hon. J. C. Gardiner, premier of Saskatchewan, and Hon. R. A. Hoey, who will represent the Manitoba Government, will be among the speakers.

## CLAIM SETTLERS ARE BARRED BY NEW INSPECTION

Ottawa.—Canada is receiving a decreased number of British immigrants owing to the new medical inspection system. This assertion was made at session of the House immigration enquiry by Col. J. S. Dennis, chief commissioner of colonization, Canadian Pacific Railway.

The records of his company showed a decrease of 40 per cent. in British newcomers for the four months of this year, as compared with a similar period in 1927. Col. Dennis stated.

A system of inspection of immigrants on the other side by roster doctors, under the supervision of a small body of Canadian doctors, would be very preferable to the new system of inspection by Canadian doctors only at British ports, he continued.

Col. J. Stubbard, British army reserve engineer, in a system of training soldiers in agriculture for a period of six months prior to their discharge from the British army. About 33,000 soldiers were discharged a number in England. A number of them were available afterwards for agricultural employment in Canada or Australia. These men, married and single, desired a guarantee of one year's employment on arrival.

Col. Dennis was here to examine Canadian conditions which he would place before these agricultural training camps in England.

London.—While the assisted passage rates for immigration to Canada are low, the restrictions on migration are severe, the Overseas Settlement committee states in its annual report published recently.

The rule that those persons who have settled down to any other occupation than that of agriculture are not allowed to nominate families for assisted passage to the Dominion is pointed out as one of the restrictions. The committee expressed the opinion that the restrictions might be modified to mutual advantage and hope is voiced that the nomination system will be extended to enable persons to enter other occupations besides farm work.

## Asks More Financial Help For Settlers

British Welfare Worker Advocates Family Reunion Scheme

Ottawa.—"Canada must not become another melting pot; we must keep Canada British."

So stated Albert Chamberlain, president of the British Welfare and Welfare League, Toronto, in appearing before the agriculture committee of the House considering immigration problems.

"There ought to be some financial assistance available to help British women and children to join their husbands in Canada, provided they can be taken care of on arrival," continued Mr. Chamberlain.

"There are today thousands of British men living in Canada apart from their wives and children in the Old Country and this is an undesirable condition of affairs for Canada, for the husband and wives and for the Old Country," he said.

The British government was prepared to financially assist the league in its family reunion scheme. If the Ontario and Dominion governments or either one of them were prepared to share the costs, the British government is ready to pay 50 per cent. of the cost of the scheme.

The league, Mrs. Chamberlain said, could bring 50,000 British women and children to Canada annually if the proper financial system was in operation.

## Would Amend Divorce Bill

Ottawa.—J. D. Woodworth, Labor member of North Centre Winnipeg, again moved in the house to amend a divorce bill. Mr. Woodworth moved that the bill be amended to give the wife—the petitioner—the custody of the child, while the father should pay \$500 a year for the child's maintenance as long as the mother remained unmarried, and \$200 a year if she remarried. The husband in this case should not have the right to remarry again and if he went through the process of marriage would be subject to seven years' imprisonment.

## Transferred To Ottawa

Rome.—The Italian consul-general at Montreal has been transferred to Ottawa. It was announced by the Italian foreign office recently. The move is considered of diplomatic importance. The Montreal office becomes a consulate. A vice-consul has been installed at Vancouver, B.C., the announcement added.

## THE COLEMAN JOURNAL

Published Every Thursday at Coleman, Alberta. H. T. Halliwell, Proprietor  
THURSDAY, MAY 10, 1928

## Make It a Clean Town

The special pages of The Journal in its last issue which were devoted to the Clean-Up Campaign created considerable interest throughout the community, and were the subject of not a little comment, all of a friendly nature. The co-operation of advertisers and civic bodies in this campaign is appreciated, and the publicity given to the campaign will undoubtedly have the effect of emphasizing the necessity of not only having a clean-up effort once a year but of keeping up the good work throughout the entire twelve months. It is surprising how the good example of one citizen in a neighborhood will influence others, and there lies in every person's heart instinctive pride which urges him to put on as good a front as possible.

## The Town Park

Coleman is fortunate in possessing a beautiful community park, which with a little work each year could be made still more attractive. Its location in a sheltered spot with the murmur of the stream to soothe the feelings of those who may frequent it, gives it an added charm, and it could be used to a much greater extent for summer gatherings. Tourists frequently comment on its natural beauty, and were money to be expended on making it more attractive by adding to the conveniences, possibly sufficient revenue could be collected by making a small charge to tourists which would pay the salary of a caretaker. The tennis club is indeed fortunate in having such a fine location for its courts and the park is an asset to the entire community which is of inestimable value, and one which would be coveted by hundreds of towns. There is a splendid scope here for community work.

## Forging Ahead

The future is ever ours to succeed or fail. No matter what the mistakes of the past may have been, the future still provides opportunities as good as those that have passed. He who tunes his mental attitude aright, who is confident of his own powers to succeed, and is not afraid to take a reasonable chance, will forge ahead of he who is continually watching his step and who is everlastingly watching his neighbor to see what he will do or is wondering what others are thinking of him. Be yourself, have faith in your own powers and don't waste time on petty things that absorb your energy and rob you of initiative. Coleman business men and its citizens can determine what kind of a town it will be ten years hence. Plainly speaking, it is up to us all.

## The Useless "Good Citizen."

There is a certain type of man in every community who poses as a good citizen. He breaks no laws, lives morally, pays his honest debts and is never tangled up with the law in any manner. But he lives of himself, by himself and for himself exclusively. When the call is issued for volunteers to put across a community movement and give a boost, he never answers. When calamity has befallen people in certain localities and charity flies to their rescue, he is never one of their number. When money is needed for a public enterprise his name is never on the list. When he sees some neighbor stuck in the mud he detours to avoid him.

In fact, if he stood on the shore and saw the ship of state sinking, he would never offer to throw out a line. And if all mankind was fashioned from this same kind of chap what would happen? There would be no churches, no hospitals for the sick, no institutions for the unfortunate, no progress. If you are about to become a useless "good citizen" read this editorial again.

The Lethbridge Herald under the caption "Miners Helping Canada Progress" states:

Pass miners who decided to sign a two year contract and then arbitrate on differences are to be congratulated on their action. They showed a real desire to promote the stability of the industry in which they are engaged. We feel sure that the mine owners will be willing to meet them and we know that the public will accord them a greater sympathy in whatever efforts they may put up in the meantime to better their conditions in the industry. Canada is going ahead these days, and the absence of serious labor troubles is one of the things that is helping in the fine progress we are making.

It is said that gowns now coming into fashion make it possible for a woman to dress in 55 seconds after spending three-quarters of an hour deciding which one to wear.

When a man gets into a rut progress for him is hopeless. But some people travel in a rut all their lives.

## False Advertisement

## Results in \$50 Fine

OTTAWA—An important decision was handed down by Magistrate Hopewell in the police court, when John Dover was fined \$50 and costs for false advertising. He advertised "manufacturers' bankrupt sale of \$75,000 stock, high grade knitted wear, bought at a very low rate on the dollar." It was admitted that there was not \$75,000 worth of goods in the store. Experts for the prosecution estimated the value at \$7000.

The magistrate agreed with the contention of the crown attorney that the advertisement led the public to believe that there was \$75,000 worth of stock to select from. The case was initiated by the Retail Merchants' Association.

## This Man Sells Bicycles—and Lots of 'Em!

The Mayor of London, Ont., in addition to his municipal duties, operates a store which sells the largest number of bicycles of any retail store in Canada. The store was established in 1912. Asked why it was that he sold so many bicycles over all competitors and in a city where there is a street car system, he stated that in his first year of business he made it a rule to spend 2 per cent. of his gross turnover in advertising. It paid so well that next year he increased it to 3 per cent. of the gross sale and found it to pay handsome dividends. Here is an object lesson for every retailer, and it is worth while taking note that the mail order houses have their advertising expenditures in like ratio, with a much heavier appropriation for special sales efforts. A store that says it cannot afford to advertise admits that business must be quiet, and lack of advertising and initiative is undoubtedly the main reason. On the other hand there are retailers who give you something to think over each week in their ads, with the result that business is attracted to them.

## Generous Requests to The Salvation Army

Reaps the Fruit of Sowing the  
Seed All Over the World

The Salvation Army's collection for the annual Self-Denial appeal in the Pass towns exceeded its objective states Captain Hind, of Coleman, with still some donations to come in. This is indeed gratifying, and he states that though it has been an uphill fight to re-establish the Army here, increased support has shown that efforts have not been in vain. As illustrating the appeal the Army's work makes and

the fruit it bears, a bachelor wool broker of Australia recently made a bequest of £400,000 (over \$2,000,000) to the Army, the biggest single gift the Army has ever received, while Mr. John Markle, a retired coal operator of New York, has by a gift of \$500,000 made possible the realization of a long cherished dream of Commander Evangelist Booth. The Commander has seen the urgent need for an up-to-date Young Women's Residence in New York City, and this splendid donation of half a million dollars, the result of a personal interview with Mr. Markle, during which he communicated to the Commander an offer to finance the whole scheme, makes the proposition skin to an accomplished fact.

Captain Hind states that \$100 from any donor would furnish a room in the training garrison of Grace hospital, Winnipeg, and the name of the donor engraved on a brass plate on the door of the room.

### St. Alban's Church

Services Sunday, May 13:  
11.15 a.m., Holy Communion;  
2.30 p.m., Sunday School.  
The J.W.A. held a successful tea and doll shower last Saturday, the proceeds being nine dollars and nine cents. This is for Dorcas work and goes to help those whose life is spent in the far off Arctic circle of Canada.  
The bishop will be here on Wednesday, May 30, and will conduct

Confirmation service at 8.30 p.m. It is hoped to have a cup of tea and a little social time in the hall after the service is over.

May 27 is Whit Sunday and there will be a celebration of Holy Communion at 9 a.m. on that date to which it is hoped all the Confirmation candidates of last year will be there along with their parents and friends.

### Stiff Fines for Stealing Logs From River

Three Men of East Coleman  
Charged by McLaren Lumber  
Co. With Stealing

Over \$600 worth of logs have been stolen from the Crow's Nest River since last fall, states the manager of the McLaren Lumber Co., consequently when three men living in East Coleman were found with company logs in their possession, they were charged with theft and fined \$25 dollars and costs, amounting to between forty and fifty dollars each. One was found with eight or nine logs, and others with one or two.

Chief Houghton last week discovered that people were in possession of company logs, and a charge was later laid by Mr. Grogg, manager of the McLaren Co. The accused appeared before Magistrate Gresham on Friday and Monday.

A search of premises by the provincial police officers disclosed that quite a number of logs were scattered around East Coleman, but it was decided to take action only against those whom it was considered were the worst offenders. With fines and costs besides having to pay the cost of the logs, it will doubtless prove to the guilty parties that it does not pay to steal logs from the river, states Chief Houghton, and the charges laid this week will deter others from this practice.

It has been going on for a considerable time, and one man, being asked why he stole the logs, stated he had seen others doing it, and thought he might as well get some too. However, having to pay \$7 or \$8 each for logs that are worth between \$1 and \$2 will impress on the guilty parties that it is too expensive to take any more chances.

### Amateur Orchestral Association Organized

Officers Elected at Meeting Held  
Last Week With John Crawford  
as President

On Sunday evening, April 29, a meeting of the musicians of Coleman was held in the council chamber. The meeting was addressed by Mr. J. Crawford, I.L.M. manager of the McGillivray Coal & Coke Co., who acted as chairman. He outlined in a very interesting way the benefits to be obtained by forming a concert orchestra not only socially but from an educational point of view. It would also be a benefit to the young as well as the old musicians of Coleman, as it would discover hidden talent and bring such before the eyes of the public. His remarks were received with great enthusiasm and all present vouched one hundred per cent. support.

The following officers were elected to conduct the business of the organization which will be known as the Coleman Amateur Orchestral Association: Chairman, A. McQueen; sec. treas., P. Locke; Executive Board, Lowe, Fulton, Wagon, Wakin and Morris Jr.

The association is very fortunate in securing the services of so competent and capable a musician as Mr. Crawford, he having had considerable experience in this class of work, being a very talented violinist and a graduate of the University Conservatory, Chicago. Under such capable directorship there are great things in store for the music loving public of Coleman and the Crow's Nest Pass.

### Columbus Knights Council Organized in Pass.

The Knights of Columbus, who have recently organized through the Crow's Nest Pass, are planning to hold their institution ceremonies in the Balmore opera house on May 20. The name of the new

council is Father Laermie Council, and the number is 2674. It is understood that all the towns from Pincher Creek to Coleman will be included in the membership, which is expected to be large. On May 21 there is to be a grand ball here, when one of the largest assemblages that has ever met in the Pass will come together.

## Perfection is Attention to Details!

McLaughlin-Buick standards of quality and workmanship are just as rigidly maintained in the smallest detail as in the most vital part of the car. Perfection is the constant aim of every McLaughlin-Buick car. Even the parts you never see are made to a degree of precision and quality that allows a wide margin of safety and durability.

THE deeply satisfying performance of McLaughlin-Buick is the result of painstaking attention to unseen but important details.  
The G. M. A. C. Deferred Payment Plan offers many advantages to buyers of McLaughlin-Buick cars.

Copyright, Canada, 1925

CHAPTER XXIII.—Continued.  
"My dear," said one, "it's our patriotic duty to save every cent. I cut down my cook ten dollars at once, and changed my dressmaker." Her voice fell. "My dear, there's a wonderful German woman on the south side. I will give you her address— and she made me a stunning little afternoon dress, with so much handwork on it, for ten dollars. Madam Franchette would have charged thirty-five. She is a positive find. She's frightened to death that she will lose her trade, and so has cut her prices away down. We're keeping it among ourselves, my dear. You know some of the L.O.E.P.'s would be up in arms if they knew. They say we should patronize our own, but, my dear, the German woman has to live."

When Helmi walked wearily back to the "North Star" that night she was beginning to wonder if to bring a child into the world were not the great transgression for which there could be no pardon. Only the thought of the blessed shelter of her room, and the warm-hearted Irish helper who had befriended her kept her brave from despair. Mrs. Corbett had not

**Firestone**  
Tread is Scientifically Designed

When Firestone engineers were developing the Balloon Tire they found it necessary to design a tread altogether different from that required by High Pressure Tires. The Firestone tread was not designed with large, massive projections for appearance or to make plausible sales argument. On the contrary, the projections of the cross-and-square tread are small and the rider strips narrow, permitting the tread to yield to irregularities and cling to the road, giving the greatest non-skid surface. This resulting qualities that give thousands of extra miles of service and save you money.

Your nearest Firestone Dealer will gladly supply your needs and give you the better service that goes with these better tires.

W. N. U. 1732

thought it was so terrible. She had praised little Lili, and Rose and Fanny were getting married now from other children in the block for a look at the child.

The traffic was congested at the corner of First and Jasper. A blue Line car waited for the rush of passengers homeward bound, and a coal wagon, lumbering past, narrowly escaped a closed motor which had crossed by disregarding the traffic law. A newsboy in an overcoat much too long for him shouted "Evening Journal, all about the suicide."

Helmi, willing to get across, was talking about it. "She took a room at the St. Petersburg. . . left her baby there."

Helmi shuddered and hurried on. She wanted to feel the little warm cheek against her own, and to listen to the regular breathing, and get back the confidence she had lost. There must be someone in this city who would let her work.

The next day Miss Ritchie had an address for her. The lady there wanted someone to come by the day and go home at night. Helmi set out at once, taking a street car to save time. When she arrived she found that the lady had already secured a helper for the day.

After Helmi had gone the lady remarked to her friend that the girl whom Miss Ritchie had sent looked rather pale, and she wished she had given her a street car ticket. The friend advised her not to worry over it—"no doubt a brisk walk would do the girl good."

Helmi walked slowly over the long bridge, whose great iron pillars frowned coldly at her. On the river below men were drawing sleighs of ice, glistering blue against the white snow. They looked so warm and happy in their fur coats. Helmi stepped for a moment to watch them, but soon hurried on, for it made her dizzy to look down, and yet it drew her back again in a horrible way. She pushed her heart best sickeningly. She compelled herself to think of Lili's plump fingers, with their long, tapering nails, and the satiny feel of her little cheek.

Helmi knew there were kind women in the city; there were women like Miss Abbie and Mrs. Rodgers, and men like Mr. Terry and the Doctor. She would not give up two days was not like to looking. Helmi knew there were kind women in the city; there were women like Miss Abbie and Mrs. Rodgers, and men like Mr. Terry and the Doctor. She would not give up two days was not like to looking.

Helmi laid her purse on her knee and leaned back against the wall. Such a weariness came over her that even the hard seat could not prevent sleep. She was awakened by the metallic voice of the assistant and sprang up in confusion. It was near closing time and the seats were empty. Then she noticed that her purse was gone. The blood rushed to her head and it seemed as if something snatched the purse from her hand. She hunted wildly, looking in her own language excitedly.

"The metallic voice was saying: 'You cannot be responsible for property—there would have been on to your purse—was there much in it?' 'All that I have in the world,' said Helmi brokenly.

"Too bad," came from the stiff collar, "but you can't blame us."

Helmi walked down the street empty handed and distraught. She had a desire to tear her hair—to scream—to break something—to kill someone. It couldn't, couldn't, couldn't—all that she had—her seventeen dollars, her marriage certificate—God could not be so cruel.

A man was speaking at the corner of the street, catching the eye of the crowd. Helmi could not make her way through the mob, and so found these words beating in upon her through the confusion of street sounds: "Canada calls you, as it has called me, don't fail her now in her need. How would you like to be ruled by Germany? How would you like to bow the knee to Kaiser Wilhelm? Think of our lives here in Canada, who are free as the air we breathe, with all our wealth of wheat-fields, oil wells, mines and forests, enough for all men for ever—yours and mine. Canada, the land of plenty, is our country, and it is up to us, the hand of the maple leaf, where there is room enough and work enough for everyone."

A shift in the crowd revealed the speaker's face. Helmi remembered him—it was Major Gosselt, the man who had been with Colonel Blackwood. Black rage filled Helmi's heart. Oh, the liar! how could he say there is work in Canada? For everybody? There's nothing in Canada but heart-breaking poverty. Clenching her empty hands in an agony of hopeless rage—"He's a liar!" she cried aloud, "don't listen to him!"

Someone tapped her arm. "None of that, my girl," said a deep voice.

AVOID IMITATIONS NOW!

Looking up, Helmi saw a big policeman shaking his head warningly at her. She turned and ran. Pigeons flew from her feet—she dared not look behind—it seemed as if the whole police force were in pursuit. Heavy steps pounded behind her. At the corner of Nanna Street a sign in a window glared at her, a sign in black letters on a blue card. Helmi read it aloud in her eagerness, then darted in the door.

"GIRL WANTED?"  
Helmi approached the desk.

"Do you want a girl? Will you take me?" she said, before she noticed the person who sat there.

A tall, old Chinaman rose from his high stool. "You washes dish, cook, waitre table?" he asked.

"I will do anything," said Helmi; "give me a chance."

"Sure, you nice little girl; old man give you chance. Work girl for night—seven till twelve every night. Nice little parties—lots of nice fellows come eat at old Sanna's—like nice little girl carry chop suey—make nice in white apron, little girl."

"I'll work hard if you'll give me a chance," said Helmi.

And so it happened that when Major Gosselt, who was recruiting for the Canadian Army, came in after late meeting the next night for a cup of coffee and a sandwich, he saw Helmi carrying the trays from the kitchen. She was dressed very neatly in her new dress, with a white apron and cap, and carried the trays with the old air of aloofness.

Deeply concerned as Major Gosselt was over the dishonoring of the Belgian women, and he spoke of them with deep feeling every night in his recruiting speeches; indeed, with an almost fatherly solicitude—he did not hesitate to tell Helmi's story now to his young officer friend.

"Our naughty-looking waitress is a lady with a past—a real purple past," he said, in a low voice. "I could swear to that head of hair any place, and that Roadside manner, though she was not looking quite so naughty nor quite so awfully when I saw her last—she evidently has gotten over her trouble and is back to her old haunts. No decent girl works in a Chinese restaurant at night."

Blackwood, at Enanmeran, had the whole story in a newspaper and showed it in front of her.

The younger man looked after Helmi as she walked noiselessly past them with her tray of dishes. "She's a good-looking girl," he said, "and certainly has not the face of a crook."

"Look out Jim," laughed the Major. "Go slow on this girl, she's a wild cat."

"She would need to be," said the young officer, "if she wants to keep straight. The girl is earning an honest living here now, anyway. Why not let her past go?"

But in spite of this rebuke, which made Major Gosselt shrug his beefy shoulders, he took time the next day

**ITCHY ECZEMA ON BABY'S FACE**  
Broke Out in Watery Pimples. Cuticura Healed.

"Eczema broke out in watery pimples on my baby's face. It itched and burned so badly that she scratched, and her face was covered with sore eruptions. When she scratched the eruptions they used to bleed sometimes. I used to fret and stay awake nights. It caused disfigurement for a while. I sent for a few samples of Cuticura Soap and Ointment and used it. I purchased two cakes of Cuticura Soap and two boxes of Cuticura Ointment, and in five weeks she was completely healed." (Signed) Mrs. Clifford Fency, Westfield, N. S.

Give Cuticura Soap and Ointment the care of your skin.

from his arduous task of recruiting for the 67th Battalion to write to his friend Col. Blackwood, at Banmerman: "I saw the Finn girl again. She is in a Chinese restaurant, working at night," and he underlined the last three words.

(To Be Continued.)

**Little Helps For This Week**

"Many shall be purified, and made white, and tried.—Daniel xii. 10.

A Water Lily

O star on the breast of the river  
O marvel of bloom and grace!  
Did you fall straight down from heaven,  
Out of the sweetest place?

You are white as the thoughts of an angel,  
Your heart is steeped in the sun:  
Did you grow in the golden city,  
My pure and radiant one?

Nay, nay, I fell not out of heaven,  
None gave me my sunny white,  
It slowly grew from the blackness,  
Far down in the dreary night;  
From the ooze of the silent river  
I grew my glory and grace,  
White souls fall not, O my poet,  
They rise to the sweetest place.

—Mary Frances Butts.

If we could only think of the pain and the suffering, the unpleasant surroundings and all the things that make living so hard, as the bed out of which the lily hearts may come, and with our hidden hearts golden and glowing, just climb up slowly through the deep waters, until the soul shall open out all white and lovely under the full sunlight of God, would it not pay for all we have to bear?—Mary Lowe Dickinson.

**Teeth and Health**

Issued by The Canadian Dental Hygienists' Council and Published by The Saskatchewan Dental Society

**WHAT LOOSENS THE BABY TEETH**

You have watched in your small son these little teeth that were once so firmly rooted, gradually loosen and begin to wobble. For fear lest he swallow them, you tied a string around it and jerked it out; or else you just picked it off, and finding no root, you wondered what had been holding it in place, and you asked yourself was it always so.

Now that's a matter of fact, the "baby teeth," upon eruption, do possess a normal root; then where has it gone? Well you see, that as the incoming permanent tooth begins to develop and push up, it must find room. So nature removes these little temporary teeth through absorption of the root, allowing the crown to fall away—a process that is attended with no pain or outward disturbances whatsoever.

But occasionally it happens that this natural process of root absorption is retarded, or that it does not occur at all, with the result that the little tooth does not loosen by the time the shedding process should take place.

This is due probably, to the death of its pulp, or to the preventing of its quick natural absorption, or it may be, to the tardy development of the replacing permanent tooth, or to its eruption into an abnormal position, or possibly to the non-development of what should have been the succeeding tooth.

In any case, your dentist will be best able to advise you as to whether this unloosened "baby tooth" should come out now or at a later date.

The unit of currency in Greece is called the drachma.

**Aerial Views Of Alberta**

Photographs Of Northern Terrain To Be Taken From Aeroplanes

Aerial surveys of the north country, up to the top of Alberta, will be commenced this summer. It is expected that a programme covering three or four years will be undertaken, and a beginning will be made this season in the vicinity of Lake Athabasca, coming south along the riverways to McMurray.

Flying machines, fully manned and outfitted for the work, will be employed, and complete photographic and topographical surveys of the area will be made.

Worms cause fretfulness and rob the infant of sleep, the great nourishment. Mother's Carel's Worm Expeller will clear the stomach and intestines and restore healthfulness.

"By jove, this chap's taking a long time to come round."  
"It's all right, doctor, that's his style; he's a plumber."

Truth is stranger than fiction to many people, but they don't care for an introduction.

About seven million packs of playing cards were exported by the United States last year.

Registered Optometrist

## Personal and Local

Captain and Mrs. Hind of the  
Salvation Army were Fernie visi-  
tors last week to meet Bramwell  
Taylor, staff officer, of Winnipeg.  
Mrs. G. R. Powell returned yes-  
terday afternoon from three weeks  
visit in Calgary at the home of her  
son, Ross Powell.

"Milkmaid" Bread, finest on the  
market. Ask at your grocer's for it.  
Made in Coleman.

An electric washer pays for it-  
self while it is being used. Let us  
demonstrate how this is done with  
the Beatty—A. E. Ferguson,  
Phone 212.

The special week end attraction  
at the Palace theatre will be Clara  
Bow in the feature picture "It."  
You will enjoy this programme with  
this wonderful star in the lead.

Bud Clarke, who was badly  
squeezed some time ago at Mc-  
Gillivray mine, is still unable to  
resume work, but is making steady  
progress.

An airplane en route from Cal-  
gary to Spokane passed over town  
on Sunday about 11 a. m., following  
the line of the C. P. R. It is a  
little over four hours trip by air.

Remember Mother's Day by pur-  
chasing flowers. Mrs. Graham at  
the post office will telegraph in-  
structions for flowers to be sent to  
any address in the world. See advt.  
in this issue.

Among those who will be leaving  
during the next two months for a  
visit to the United Kingdom is  
Sir George Pattinson, who com-  
presents leaving for England the  
latter part of this month.

Auditors from the firm of George  
A. Touche & Co., chartered ac-  
countants, of Calgary, were here  
last week making the annual audit  
of the McGillivray Creek Coal &  
Coke Co. Ltd., whose financial  
year ends on March 31.

Harry Boulton, forest ranger,  
gave a lecture to the children of  
West Coleman school on Friday  
afternoon, which was illustrated by  
slides shown by Captain Hind of  
the Salvation Army.

Coleman Baseball Club will hold  
a grand novelty dance in the Italian  
Hall on Friday, May 18, for which  
the Knights of Rhythm orchestra  
has been engaged. Tickets will be  
on sale this week, and the boys  
ask your support for their opening  
dance.

Quite a number have joined in  
the clean-up campaign during the  
past week, and many piles of ashes  
have been removed. There still  
remains considerable work to be  
done. Stores selling paint state  
there has been quite a good demand  
during the week.

Mother's Day will be observed at  
both services at the United church  
on Sunday. A combined gather-  
ing of church school and congrega-  
tion at 11 a. m. and the regular  
services at 7 p. m. All who care to  
attend are cordially welcomed.  
The regular afternoon session of  
the school is cancelled for the day.

Tourists are passing through from  
the western states, Sam's Service  
Station reporting several from Cal-  
ifornia. One party of two ladies  
and two children were driving from  
San Diego, Cal. to Saskatchewan.  
Sam has a supply of strip maps of  
principal auto routes.

Mr. Keith Whimster, of Penticton,  
B. C. called on Mr. and Mrs.  
F. Graham sr. on Monday while on  
his way east by car to arrange for  
distribution of fruit for the fruit  
pool growers of British Columbia.  
He is a former resident of Coleman.

The baseball enthusiasts of town at a  
recent meeting decided to re-organize  
and will line up as strong a team as  
possible from local players. A list will be  
circulated to secure financial support to  
be circulated to secure financial support to  
start the club, states Angelo Gentile,  
manager. With the formation of a  
league in the neighboring towns with  
Coleman, some good games may be  
looked for this season.

## Baby Clinic Held Monday

At the baby clinic on Monday,  
in charge of Miss Emmerson, of  
the Dept. of Public Health, Ed-  
monton, 26 babies were examined.  
This was considerably below the  
number of last year, when over 40  
were examined, and one of the rea-  
sons for this is possibly that last  
year prizes were awarded, whereas  
this year no awards were made be-  
yond the marks given. The at-  
tendance however was gratifying to  
the Women's Institute, as those at

who brought babies were keenly in-  
terested from a health and hygiene  
standpoint, and not so much as the  
marks their babies would receive.  
Those who were examined last year  
by Miss Emmerson and whose  
mothers had followed the instruc-  
tions then given, showed very bene-  
ficial results.

**Amateur Baseball Association**  
The postponed annual general  
meeting of the Alberta Baseball As-  
sociation will be held in the Elks  
Hall, Macleod, on Wed. May 16  
at 8:30 p.m.
